WILY JAPANESE BEAT IMMIGRATION OFFICE

Several Captured by Point Arena Officials after Making a Secret Landing on the Coast—Drift to Land in an old Schow which is Afterwards Found Deserted.

(Press Special Service.)

Point Arena, Aug 13—Customs inspector J. S Grand and guards arrived here to investigate the matter of the Japs that were captured last Friday and the junk in which they crossed the Pacific was taken in tow by the Pomo for San Francisco with 15 Japs on board. Two of the Japs caught had papers showing that they had been in the United States from 1901 to 1907. They spoke English and told of their trip across the Pacific in the scow. Seventeen had crossed but two succeeded in avoiding the officials. The landing was made at Elk creek 18 mile north of Point Arena. This junk was about 60 feet long and full rigged. It was towed down to Point Arena by Mr. Olsen behind his launch. A little rice and a few personal belongings were found on board. As eight more Japs have been captured at Eureka it is thought that a wholesale smuggling scheme has been unearthed.

According to reports from the coast it appears that the Japanese have hit on a way to get into the United States without attracting much notice and have been working the scheme for sometime. Their scheme is to cross the ocean in large vessels and to embark in small boats before getting in sight of land and drifting to some point on this coast.

A report from Point Arena is to the effect that eight suspicious looking Japs passed there last Friday morning on their way south. Officer Miller notified the immigration bureau at San Francisco and received instructions to take them in charge and he and officers Gibson and Ketchum succeeded in capturing four of them. Seven more were seen near Point Arena and detained and three had their immigration papers.

It is believed that the Japanese were laned on the coast between Greenwood and Point Arena from an old Japanese scow that has been in the neighborhood. The scow was towed to Greenwood later in the day and was found to be deserted, but the sails were set and considerable provisions and luggage were aboard.

OLD PROSPECTOR IS TAKEN SUDDENLY ILL

John Scott walked into town Wednesday and was admitted to the county hospital. The old man has spent his life prosecting and for several years past has been in Trinity county. He had started to San Louis Obispo where he has a sister living and was driving a burro in a cart. He camped on the river near town and was taken ill and his eyesight failed him and it was two days before he succeeded in gettns to town. He is now offering his burro for sale and hopes to get enough to take him to his sister.

MEETS DEATH WHILE DIVING

Attorney Theodore P. Hale received word this week of the death of his brother H. H. Hale, at Gulfport, Miss., on August 7. Young Hale was 15 years old and was swimming in the gulf with a number of companions only a short distance from the family residence In diving he misjdaged the depth of the water and struck on his head breaking his neck. This is the first death in the family of seven children.

WONDERFUL VALUE IN 1914 OVERLAND

Agent Taylor of the Overland reports that he believes that he has the best value for the money ever offered in the autmobile line for 1914. The 1914 car is 35 h p and completely equipped with electric side, head and tail lights and storage battery for $950. With a Gray & Davis starter and generator the price is $1075. These prices are F O B Toledo, Ohio. The car is a beauty and Mr. Taylor will have one here for demonstration purposes as soon as possible. The full particulars are given in his ad in another column.

ARE VISITING FRIENDS

Mr. and Mrs. C. C. Toney arrived this week from Imperial valley and are visiting friends and relatives. Cal is looking fine and the southern part of the state evidently agrees with him. He reports however that he is glad to get back to Ukiah again and that he will probably remain a month.

UKIAH BREWERY DOING VERY LARGE BUSINESS

Both Brewery and Ice Plant Being Enlarged and Capacity will be Doubled for Next Season---Pilsner Beer a Popular Brand in Neighboring Towns.

The Ukiah Brewing company has enjoyed a much better trade this summer than was anticipated and a cooper is now employed increasing the cooperage of the plant. The Pilsner brew has proved extremely popular and is rapidly replacing other brands in this section. They are also shipping to Willits, Cloverdale and Fort Bragg and the demand is increasing daily. Arrangements are also being made to bottle a temperance beer containing less than one per cent alcohol for next summer.

The ice demand proves enormous and the capacity of the plant has been severly taxed. They started the summer with a reserve of 50 tons and have been making five tons a day and they have been compelled to ship in three carloads besides. The ice plant will be remodeled next season and the capacity increased to 10 tons a day.

The new process of purifying the water for the ice by an air blast is being investigated and if found satisfactory will probably be installed. It is said that this method makes a harder and clearer ice. The brewery is at present turning out 200 barrels of beer a month.

SOCIALIST WILL SPEAK HERE

J. Stitt Wilson will speak in this city August 22th in front of the courthouse. He is the foremost exponent of socialism on the coast and is the socialist mayor of Berkeley.

FITST IRRIGATION DITCH COMPLETED

The workmen have completed the irrigating ditch from the Ford Bros. ranch to the old Fake place owned by Lew Cunningham and the water has been turned in and is being used for irrigation. About 20 acres will be irrigated on the Cunningham place and Ford Bros. have a piece of land leveled and checked for the water. The present ditch is about half a mile long and 4 feet wide on the bottom and a foot and a half deep and about 7 feet wide on top. A 14 inch centrifical pump is being used with a capacity of 6000 gallons a minute and is operated by an electric motor.

The survey was made by R. E. Donohoe and it is expected that the ditch will eventually be extended dowr the valley. The water is taken out of wells on the Ford Bros ranch and is started at such a height that there will be no trouble in getting it on any ranch in the valley. This is the first step toward irrigating on a large scale in this valley and is undoubtedly the forerunner of an extensive irrigatng system.

PASSED BOGUS CHECKS

C. J. Richardson is wanted on the coast for passing bad checks. He cashed about $75 worth and then hired an auto from Scotts garage at Fort Bragg to take him to Cloverdale for which he gave one for $40. He had caught the southbound train and got out before it was discovered that the checks were bad. Richardson has been employed on the coast for years as a donkey engine tender. Sheriff Byrnes and his deputies are now on his trail.

DISCHARGED MAN SHOOTS EMPLOYER

Melville Call, proprietor of a saloon in Fort Bragg, was shot and seriously wounded by John Kemmis. It seems that Kemmis had been discharged for some reason and as he showed signs of making trouble and had been searched by Night Watch Perkins but had no firearms. He left the saloon and later returned with a pistol and shot Call. He was immediately arrested and was brought to this city by Ward Reis Tuesday and lodged in the county jail.

FATTEST DEER OF THE SEASON BROUGHT IN

Oscar Hargis, Green Burke, Gairn Railey, Johnnie Johnson, Archie Johnson and Henry Busch returned Monday from a hunting trip east of Round valley. The boys report a fine outing and had seven deer hanging in camp at one time. The boys report the fattest deer of the season, one five pointer weighing 160 pounds dressed. They succeeded in getting the limit and report a fine outing.

Walter Sandelin will leave today to enter the Hitchcock Military academy at San Rafael.

CITY DELIVERY IS GREAT SUCCESS

The city mail delivery is proving more than satisfactory to all concerned and over 1000 people are now receiving mail by carriers in Ukiah. Postmaster Caughey announces that new applications to have mail delivered are coming in every day and that in a few weeks practically every resident of town will have his mail delivered. Carriers McKenzie and David are getting on to the ropes and are pleasing the people receiving mail by their promptness.

Postmaster Caughey is anxious to receive any suggestions from patrons that may tend to improve the service as he is anxious to have one of the best city deliveries in the United States. He also requests patrons to kick if they have any kick coming as it is only by hearing of the kicks that the service may be improved.

RELEASED ON PAROLE

Gene Vassar and Leland Thompson were released on parole from the county jail this week and have returned to their homes at Hopland. They had served over half of their time. It will be remembered that while celebrating they had taken a box of dynamite from the powder house of the Hopland Lakeport railroad.

CAMP NEWLYWED ABANDONED

Camp Newly Wed on Mill creek was abandoned this week and the inmates have dispersed to their several homes. They strongly deny that they ran out of grub and say that they have learned a great deal about hunting. They also report a very enjoyable outing.

THE EEL RIVER DAM WATER RELEASED

The Snow Mountain company has opened the dam on Eel river and released the waters so that repairs can be made on the tunnel. The water in Russian river is greatly reduced as a result. Only a small stream is running into the dam and the ferry has been discontinued the river being forded further up. It is reported that a great many fish were stranded when the water went down and that the Indians have been reaping a harvest gathering them out of the mud.

FORMER UKIAHITES VISITS CHAPTERS

Attorney J. L. McNab and Dr. C. E. Peirce of San Francisco were here Saturday night to attend the joint meeting of the Eastern Star chapters. Johns practice is already bringing in as much as his position as U S Attorney and the tactics of the Wilson administration in delaying the Diggs and Caminetti and the Western Fuel cases and which John would not stand for have brought John many friends. While it has put an awful crimp in the Wilson administration it has made John one of the most popular men in the state. Dr. Peirce is also making good in San Francisco and is enjoying a good practice.

TWO BIT WANT AD SOLD HIS TEAM

Lonnie Lowe is one of the latest converts to Press want ads. He advertised his team and wagon and harness for sale last week and was overwhelmed with enquiries. One of the first applicants bought the team and Lonnie is highly pleased with his 25 cent investment in printers ink. Press want ads bring results.

DROWNED AT HOPLAND SUNDAY

Jas. C. Baker was drowned in Russian river at Hopland Sunday. The deceased had gone there to pick hops. He had a letter from his wife in San Francisco which indicated that they had separated. Very little was known of him at Hopland.

E. L. Waldteufel of the finance committee of the Ukiah Hop Festival has been busy this week soliciting subscriptions for and reports the people are contributing liberally and that the present indications are that several thousand dollars will be raised. The above list shows the amount contributed to date from business houses. The canvas has just started and by next week it is expected to have a large showing of contributors.

The posters announcing the hop festival have been printed and the publicity committee has been busy this week mailing them out to neighboring towns. At a meeting of the publicity committee it was decided to order 250 penants advertising the hop festival. These will be sold to auto owners and others at cost. It is figured in this way that a great deal of valuable publicity will be obtained as every auto owner will be a booster for the hop festival. The banners will be neat in design and will undoubtedly prove popular with autoist.

The committee is busy this week making arrangements for excursions from points along the railroad and it is expected that announcements for the excursions can be made next week. The Ukiah hop festival is promising to be the biggest along the line this year and thousands of outsiders will undoubtedly visit Ukiah during the festival week.

STATE FAIR TO HAVE LOCAL EXHIBITORS

Hughes and Eaton of this city have entered their jacks, Black Republic and Col Breckenridge and Jennie and foal, Miss Yager and Douglass Yager at the State fair and the Santa Rosa fair. They have also entered twenty pens of blooded chickens consistng of Brahams, leghorns, minorcas, orphingtons, white faced black spanish and cornish indian games. Their stock and chickens are of the finest and they feel confident of bringing home a number of prizes. So far as heard this is the first entries from this section for the state fair. George Schmitt announces that he will probably exhibit his white leghorns.

HOPPICKING COMMENCED EARLY

Hoppicking was commenced at the Frank Lawrence place Tuesday. It is reported also that picking commenced in some of the fields at Hopland Tuesday. This is the earliest that hoppicking has ever commenced in this section.

LOCAL SPORTSMEN FISHING ON COAST

Dr. A. L. Gibson, Professor B. L. Cleland, Mayor Tom Farrance and Heiny Meyers left this week for an outing on the coast in the doctors auto. They expect to bring home most of the crabs and abalones on the coast and also a few fish. While there Tom will investigate the John Lane rumor that the abalones are digging the potato crop and will try out a new trap he has invented for catching them.

HAS BOUGHT POTTER RANCHES

E. J. Zimmer was down from Potter valley Tuesday on a busines visit. Mr. Zimmer recently purchased the Jim Burris and Pate Smith ranches and has one of the finest cattle ranches in the county. He is at present residing in San Francisco where he has business interests but reports that he expects to move to Potter as soon as possible and take up his home on his ranch.

FOURPOINTER KILEED WITH PICKKT SUNDAY

John Cooley Captures One in his Barnyard near McCray's — Have Been run down by Automobiles, but it is the First One to be Killed with a Picket.

John Cooley of Cloverdale was working in his barn yard Sunday morning when he heard a dog running and on looking up was surprised to see a fine four pointer entering the yard. John who is some fishermen but not much of a hunter started to walk toward the deer and the monarch of the forest showed fight. John thereupon grabbed a fence picket and waded in. After the dust settled the deer was laying dead from concussion of the brain, John having landed three blows between its horns.

Investigation showed that the deer had been run out by some hunters and slighlty wounded and that the dogs had run it into the barnyard. As the deer was killed only a short distance from McCrays resort a number of the guests saw the melee and rushed over just in time to help skin the deer The only man on the job who did not get excited was Pop McCray who calmly announced that this was the first time that he had ever heard of a deer being killed with a picket although he did remember that a half breed had once robbed a stage near there using a picket for a rifle on the late Doc Curtis.

Cooley was the hero at McCrays Sunday night and the guests have the hunting fever and a number of them have been putting in the week scouring th hills with visions of venison. At last reports their success had been only partial.

TEN THOUSAND PEOPLE REACHED FOR A CENT

Press Want Ads the Cheapest way to Tell Your Story to the People, Ever Devised—Others are Getting Results, Why Not You.

There are many kinds of pulicity which can be had at various prices from individual letter to telpehones and telegrams each of which however only reaches one person. To the advertiser the kind of publicity that is wanted is the kind that will bring the best results for the least outlay, and in the quickest possible time. In the days when there was only a few people living in Mendocino county all that was necessary if you had anything to sell was to tell your neighbor and it was passed along by word of mouth. Now a days with a more dense population this method will reach only a few people and then probably not the ones you want to reach. The want ad however will reach the greater majority of people in one day. A Press want ad reaches 2000 actual subscribers and at least 10,000 people read it. At a cost of 1 cent a word it therefore costs you 1—10,000 of a cent to reach each of these people. In other words figuring the cost of each letter at 5 cents the same money will reach 10,000 people with a message of five words. The minimum price of a telegram is 25 cents for 10 words to one person. For the same cost you can reach 10,000 people with a message of 25 words through a Press want ad. Think it over and see if you can afford to reach the people in any other way.

INTERESTING LOCAL AND PERSONAL ITEMS

Roy H. Douglass, formerly of Ukiah, but since January 1st, 1913 manager of the John Bollman Co., at Los Angeles office reports that he is doing handsomely in his new surroundings and that he is spending the summer in his new home at Venice, with his wife and two daughters. Ukiah has turned out many successful business men and Roy Douglass is one of them. We are informed that "Imperiales" Cigarettes have made big strides since Roy has taken hold of the reins in Los Angeles.

Mrs. Edwards who has been visiting here for several weeks was called home yesterday by the illness of her daughter Verda. Miss Verda returned to San Francisco a couple of weeks ago to attend school but was taken sick and was unable to do so.

YELLOW JACKETS EASILY TRAPPED

It is reported that the yellow jackets are bothering the fruit men again this season and damaging fruit. The following very simple remedy for the yellowjacket pest is said to be a sure shot:

"If the farmer will provide himself with a few nail kegs, take out both head and bottom, and with a swab tar the inside well, place the keg on its side on the drying boards, place a short shingle across the bilge inside the middle o. the keg upon which put a minced meat or liver. The yellow jacket will leave the fruit to eat the meat, and in flying into and around the keg will get stuck on the tar and remain there.

In a short time all the colonies in the neighborhood will leave their victims in the tar and the farmer will be enabled to dry his fruit without further molestation.

I used this method for many years with the utmost success and freedom from annoyance. The tar used must be pine tar as coal tar is not sticky enough to catch the yellow jackets.

ROUND VALLEY PEOPLE BUY LAND IN ARIZONA

Mr. and Mrs. M. E. Nicholson and daughters Claudia and Ruby of Covelo left this week for Wilcox, Arizonia, where they will reside. Miss Claudia has been in San Francisco of for some time under the care of an eye specialist and has completely recovered Mr. Nicholson is enthusiastic over the Sulphur springs valley country and has taken up 320 acres of land and will engage in the stock business.

He reports that the climate is much the same there as in Mendocino county and that there is plenty of water. Mr. Nicholson shipped his household effects and personal property from this city and reports that he had to buy an interest in the railroad to get a car. Ed Gibson, John and Ben Hayden, Dan English, McClure, Smith and Davis of Round valley have all bought land in Sulphur springs valley and it looks as if three would be quite a Mendocino colony there.

STATE HIGHWAY WORK SOON TO BE FINISHED

Road from Forks to Ukiah will be Completed by Next Week---Grading Toward Calpella is Progressing Rapidly---Road Surface to be Oiled.

Roy Whited was in from the state highway Wednesday and reports that the grading is completed to the city limits and that gravel is now being put on and that the highway from the forks down will be completed next week. He states that Engineer Sumner is trying to make arrangements with the commission to commence oiling this road immediately and that it is hoped to have it oiled and completed to the city limits next week and ready for travel.

The grading from the forks toward Calpella is completed to the Scott hill and work is progressing rapidly. It will only be a short time until the whole contract is completed. Mr. Whited states that the worst trouble they are having is with the people turning off the side road on to the highway and driving along the unfinished portions of it. This cuts up the road and necessitates more work on the part of the contractors.

He states that they have signs all along the road and that if the practice is continued that they will be compelled to make arrests. There is a fine of $10 attached to driving on and injuring this road before it is accepted by the state.

IF YOU WANT TO SEE THIS TOWN GROW

If you want to see this town grow, remember that you are a part of it and that its growth depends as much on you as on your neighbors. Don't get the idea that the future prosperity of this town rests with a few, for it is the business of the many. Above all, don't criticise those who are trying to upbuild the community and do nothing yourself. They at least have the proper spirit and, just as long as you deny them your support, just that much harder their work will be.

Be a booster for the town and lend your cooperation to those who had the nerve to start first. It is never too early to start and it is never too late to begin.

WOULD YOU?

If someone else should say to you
That somewhere else the crops that grew
Was each of them as big as two
That you have ever grown;
If someone else should come and say
That somewhere else some miles away
The sandy loam or fertile clay
Is better than your own—
It's very likely, is it not,
That this would make you pretty hot?
If someone else should come and yell
Some other town up-state a spell
Is twice as good, looks twice as well,
As this you're living at;
Some other town the man repeats
Has better people on its streets,
While yours at home are sharks and cheats,
How would you answer that?
If someone knocked the friends you had,
Now wouldn't you be pretty mad?
If some folks else some other day
Should sometime write to you and say
Their goods they almost give away,
And all are No. 1,
That theirs are better than the brands
Right here in your own merchants hands.
That he a robber's price demands
While they sell goods for fun—
If someone wrote like that to you,
Would you believe such stuff is true?

RAILROAD WORK IS NOW BEING RUSHED

The Eureka Herald states that work is being rushed on the extension of the N. W. Pacific and that the company is determined to have the track laid by July of next year. It is expected that regular passenger trains will be in operation by the last of 1914. Double shifts will be worked on the line between Fort Seward and Island mountain and about 500 men are now employed.

30,000 VOICES

And Many are the Voices of Ukiah People.

Thirty thousand voices—what a grand chorus! And that's the number of American men and women who are publicly praising Doan's Kidney pills for relief from backache, kidney and bladder ills. They say it to friends. They tell it in the home papers. Ukiah people are in this chorus. Here's a Ukiah case.

W. F. Patten, carpenter, 504 N. School St Ukiah, Cal., says: "Doan's Kidney Pills have proven entirely satisfactory in my case having brought me relief from kidney complaint which was caused by a strain and exposure. Doan's Kidney Pill relieved me of backache and thoroughly rid me of symptoms of uric acid. I do not hesitate to publicly endorse this medicine."

"When Your Back is Lame—Remember the Name." Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Patten had—the remedy backed by home testimony. 50c all stores. Foster Milburn Co., Props., Buffalo, N. Y.
